

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Jeff Parkhill  
DOCKET NO.: 04-26976.001-R-1  
PARCEL NO.: 14-32-102-042-0000  
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Jeff Parkhill, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a one-year-old, three-story, single-family dwelling of masonry construction containing 3,882 square feet of living area and located in North Chicago Township, Cook County. Features of the home include three and one-half bathrooms, a full-finished basement, air-conditioning, three fireplaces and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and two of the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story or three-story, four-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. Three comparables are located on the same street and within one block of the subject. The improvements range in size from 3,820 to 3,939 square feet of living area. The comparables contain three and one-half bathrooms, a full-finished basement, air-conditioning, one or two fireplaces and a two-car garage. The improvement assessments range from \$23.27 to \$25.80 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,084  
IMPR.: \$ 100,156  
TOTAL: \$ 112,240

Subject only to the State multiplier as applicable.

PTAB/rfd5386

Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$130,661. The subject's improvement assessment is \$118,577 or \$30.55 per square foot of living area. In support of the assessment, the board of review submitted a property characteristic printout and descriptive data on one property suggested as comparable to the subject. The suggested comparable is improved with a three-story, 3,816 square foot, one-year-old, single-family dwelling of masonry construction with the same neighborhood code as the subject. The comparable contains three and one-half bathrooms, a two-car attached garage, air-conditioning and a full-unfinished basement. The improvement assessment is \$48.40 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables two, three and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and construction. In addition, they are located on the same street and within one block of the subject and have improvement assessments ranging from \$24.86 to \$25.80 per square foot of living area. The subject's per square foot improvement assessment of \$30.55 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
